ENHANCEMENTS

Delivery Manager

eFlorist Point of Sale **Delivery Manager Custom Stops** now supports **Shorthand Codes** and **Address Verification!**

Shorthand Codes

When adding custom stops to delivery trips, Facility or Location Shorthand Codes may be entered to quickly populate address and special instructions information. After keying the appropriate code, click the **Shorthand Code** link to populate the associated data.

Shorthand Codes are managed by accessing the **Shorthand Code Manager** from the Settings menu of the ePOS dashboard.

The screenshot shows the 'Add Custom Stop' form. The 'Address' field contains 'TFO'. Below the address field, there are links for 'Find a Common Address', 'Shorthand Code', 'Find a Facility', and 'Map Address'. The 'Postal Code' field is empty, 'City' is empty, 'State / Province' is set to 'Oklahoma', and 'Country' is set to 'United States'. The 'Notes' field is empty. At the bottom right, there are 'ADD' and 'CANCEL' buttons.

Figure 1: Custom Stop – Shorthand Code TFO Entered

Address Verification

ePOS now verifies address information entered during Custom Stop creation, with the same features available during order address entry.

The screenshot shows the 'Add Custom Stop' form with verified address information. The 'Address' field contains 'Teleflora'. Below the address field, there are links for 'Find a Common Address', 'Shorthand Code', 'Find a Facility', 'Map Address', and 'ValidateAddress'. The 'Postal Code' field contains '72450', 'City' contains 'Paragould', 'State / Province' is set to 'Arkansas', and 'Country' is set to 'United States'. A green checkmark and the text 'Address Verified' are visible above the 'Postal Code' field. The 'Notes' field is empty. At the bottom right, there are 'ADD' and 'CANCEL' buttons.

Figure 2: Custom Stop Verified Address Info.

The screenshot shows the 'Add Custom Stop' form with unverified address information. The 'Address' field contains '122 North Main'. Below the address field, there are links for 'Find a Common Address', 'Shorthand Code', 'Find a Facility', 'Map Address', and 'ValidateAddress'. The 'Postal Code' field contains '72450', 'City' contains 'Paragould', 'State / Province' is set to 'Arkansas', and 'Country' is set to 'United States'. A yellow warning triangle and the text 'This address could not be verified.' are visible above the 'Postal Code' field. The 'Notes' field is empty. At the bottom right, there are 'ADD' and 'CANCEL' buttons.
